74 Preferences The exact folder name in the Finder may vary, depending on the language you use for OS X.. Assuming you placed it inside your home folder you should be able to run this command to MOUNT the folder.. It helps to have experience with the System Terminal and the Command Line Once set up however a simple shortcut will be all you need.

Move this folder into your Applications folder Now you need to create a folder to MOUNT as your C: drive and hold your games.. In This example we will call our folder DOSGAMES Inside this folder we can place all of the programs that we want to be available in our emulated DOS environment.. To install DOSBox, first expand the ZIP file and copy the contents into a folder like DOSBox.
