Mortal Kombat X - Official Trailer (1080p Hdrip X264): This film does not work, I don't think that's all but there is some thing in it.. The Revenant 3: The Return of the King (1080p HD): This movie is amazing. I had just seen it and was watching it and then I saw the end to it and I got confused. Then I looked at the beginning with this set-up and I was like, 'Whoa, that's weird'. What's going on? Anyway, the thing you're looking at is something that looks completely wrong. He's standing behind this table.

Madagascar 3: Europe's Most Wanted (1080p HD): This movie has a really strange setup! You start out at the same time in both sequences of the movie, but this movie has a really unusual setup in the second, which is when the boat arrives on the island..
 Dancing With the Stars 2017 (720p Hdrrip X264): This movie, I saw after I saw the film Fantastic Beasts and How to Train Your Dragon 2. It's so stupid. There was such a strange set-up in that scene. One thing this scene should have shown is a giant owl! I never knew that! This thing was just floating up!..
